*Subject index**

A

Abnormalities, congenital, in infants (Norman), 456 (B. rev.)
Academician and pediatrician: recognition of dual career (Editorial), 154
Acid, folic, deficiency and prematurity (Shojania and Gross), 323
Acrodynia (Blattner) (Comments), 607
Addison's disease, familial, associated with pernicious anemia in young girl (Quinto, Leikin, and Hung), 241
Adenovirus type 3, fatal case of inclusion body pneumonia in infant infected with (Wright, Beckwith, and Gwinn), 528
  type 7 from fatal case of pneumonia and disseminated disease (Benyesh-Melnick and Rosenberg), 83
Adolescence and childhood, growth of lean body mass during (Forbes), 822
  effect of sexual maturity on serum concentration of "hormonal" iodine in (Rauh, Knox, and Goldsmith), 697
Adolescent male, nasopharyngeal angiofibroma in (Pimpinella), 260
Adrenocorticotropic hormone in children, anaphylactic reactions to (Rosenblum and Rosenblum), 387
Alkaline and phagocytic phosphatase activity of leukocytes in kwashiorkor (Tejada et al.) (Trop. ped.), 753
Alkalinization and peritoneal dialysis of urine in salicylate intoxication (Summitt and Etteldorf), 803
Altitude, high, cardiovascular system in children from (Vogel, Pryor, and Blount), 315
Amniotic aspiration (CPC), 446
Anaphylactic reactions to adrenocorticotropic hormone in children (Rosenblum and Rosenblum), 387
Anemia, pernicious, in young girl associated with idiopathic hypoparathyroidism, familial Addison's disease, and moniliasis (Quinto, Leikin, and Hung), 241
Angiofibroma, nasopharyngeal, in adolescent male (Pimpinella), 260
Anion exchange resin in treatment of two siblings with familial hypercholesterolemia (Horan, DiLuzio, and Etteldorf), 201
Anlage tumor, retinal, of infancy in anterior fontanel (Reyes, Gonzalez-Angulo, and Navarrete-Reyna), 268
Anomalies (*See also* Malformations)
  associated, and dermal ridges (fingerprints), kindred showing congenital absence of (Baird), 621
  congenital, newborn infant (Marden, Smith, and McDonald), 357
  newly recognized syndrome of multiple congenital (Smith, Lemli, and Opitz), 210
Anoxic changes in brain (CPC), 446
Antibody(s) poliomyelitis, in human colostrum and milk (Athreya, Coriell, and Charney), 79
  response to cutaneous inoculation with vaccinia virus (Blattner et al.), 839
Appreciation of Alexis Frank Hartmann, Sr. (Forbes), 793
Arteriosus, patent ductus, and cranial bruit (Farahmand, White, and Lucas) (BCLO), 441
  truncus, pulmonary artery banding for persistent (Kreidberg et al.), 557
Arteriovenous shunts, natural history of ventricular septal defects in childhood lesions with predominant (Ash), 45
Artery, pulmonary, banding for persistent truncus arteriosus (Kreidberg et al.), 557
  stenosis, artificially produced (Tsifutis et al.), 866
Arthrogryposis multiplex congenita associated with tuberous sclerosis (Sandbank and Cohen), 571
Artificially produced pulmonary artery stenosis in dog (Tsifutis et al.), 866
Aseptic myocarditis, acute, and corticosteroid therapy (Ainger), 716
Aspiration, amniotic (CPC), 446
  bone marrow, in children with malignant tumors (Delta and Pinkel), 542
Atrophy, thymic (CPC), 446
Azotemia and hematuria associated with administration of methicillin (Grattan) (BCLO), 285

B

Banding, pulmonary artery, for persistent truncus arteriosus (Kreidberg et al.), 557
Barracuda ingestion, neurotoxicity due to (Fogel), 561
Biochemical lessons, some, to be learned from phenylketonuria (Bessman), 828
Biosynthesis of heme in lead intoxication, disturbances in (Chisolm), 174
Body mass, lean, during childhood and adolescence, growth of (Forbes), 822
Bone marrow aspiration in children with malignant tumors (Delta and Pinkel), 542
  failure in pediatric patients (Desposito et al.), 683
Books:
  Received, 147, 297, 456, 610, 775, 923
  Reviews, 456, 610
Bowel, small, of children with cystic fibrosis, light and electron microscopic examination of (Freye et al.), 575

*January, pp. 1-158; February, pp. 159-304; March, pp. 305-468; April, pp. 469-620; May, pp. 621-782; June, pp. 783-946.

Brain, anoxic changes in (CPC), 446
Breathing, periodic, of premature infants (Chernick, Heldrich, and Avery), 330
Bruit, cranial, in patent ductus arteriosus (Farahmand, White, and Lucas) (BCLO), 441
Buccal smear for sex chromatin in congenital anomalies in newborn infant (Marden, Smith, and McDonald), 357

C

Calcifications, intracranial, caused by disease, opaque areas on cerebral roentgenography simulating (Livingston and Pauli) (BCLO), 772
Cardiovascular system in children from high altitude (Vogel, Pryor, and Blount), 315
Care, infant, changing fashions in (Gaisford), 913
Central nervous system complications of children with acute leukemia (Evans, D'Angio, and Mitus), 94
Cerebral edema with herniation, compression, necrosis and contusion (CPC), 290
palsy, thyroid disorders, and meningopathies, patterns of, and muscle reflex patterns (Wall, Umlauf, and Geppert), 701
roentgenography simulating intracranial calcifications caused by disease, opaque areas on (Livingston and Pauli) (BCLO), 772
Chest, roentgen appearance of, in acute glomerulonephritis in children, (Kirkpatrick and Fleisher), 492
Childhood and adolescence, growth of lean body mass during (Forbes), 822
infancy, muscle reflex patterns in (Wall, Umlauf and Geppert), 701
Chromatin, sex, in congenital anomalies in newborn infant (Marden, Smith, and McDonald), 357
Chromosome complements, XXX sex, clinical and cytogenetic studies on group of females with (Day, Larson, and Wright), 24
Cirrhosis, lipoatrophic diabetes with (CPC), 138
Clinical and cytogenetic studies on group of females with XXX sex chromosome complements (Day, Larson, and Wright), 24
implications in fetal hypothyroidism (French and Van Wyk), 589
Cognitive functioning of glue-sniffers and nonsniffers (Dodds and Santostefano), 565
Congenital abnormalities in infants (Norman), 456 (B. rev.)
absence of dermal ridges (fingerprints) and associated anomalies, kindred showing (Baird), 621
anomalies, multiple, newly recognized syndrome of (Smith, Lemli, and Opitz), 210
in newborn infant, including minor variations (Marden, Smith, and McDonald), 357
insufficiency of pulmonary value (Sanyal et al.), 728
mitral insufficiency, isolated (Husson et al.), 248
syphilis: laid ghost walks (Woody, Sistrunk, and Platou), 63
Colostrum and milk, human, poliomyelitis antibodies in (Athreya, Coriell, and Charney), 79
Congenital infection, repeated, with Toxoplasma gondii (Blattner) (Comments), 452
Convulsive equivalent syndrome of childhood (Chao, Sexton, and Davis), 499
Corticosteroid therapy and acute aseptic myocarditis (Ainger), 716
Cortisone and testosterone treatment in bone marrow failure in pediatric patients (Desposito et al.), 683
Coxsackie virus infections (Cramblett et al.), 406
Cranial bruit in patent ductus arteriosus (Farahmand, White, and Lucas) (BCLO), 441
Craniosynostosis in rachitic spectrum (Reilley, Leeming, and Fraser), 396
Crystals, unidentified in renal medullas (CPC), 446
Cutaneous inoculation with vaccinia, virus antibody response to (Blattner et al.), 839
Cystic fibrosis, light and electron microscopic examination of small bowel of children with (Freye et al.), 575
of pancreas, hypoproteinemia and edema in infants with (Fleisher et al.), 341
protein metabolism in (Fleisher et al.), 349
Cystitis, eosinophilic (Wenzl, Greene, and Harris), 746
Cytogenetic and clinical studies on group of females with XXX sex chromosome complements (Day, Larson, and Wright), 24
Cytomegalic inclusion disease in newborn twins (McAllister, Wright, and Tasem), 278

D

Defects, ventricular septal, in childhood lesions with predominant arteriovenous shunts, natural history of (Ash), 45
Deficiency(s), disaccharidase, with steatorrhea (Lifshitz and Holman), 34
folic acid, and prematurity (Shojania and Gross), 323
iron, prevention of, and iron metabolism in premature infants (Gorten and Cross), 509
Dental development in New Guinean infants (Bailey) (Trop. ped.), 97
Deoxypyridoxine administration in mongoloid and nonmongoloid patients, excretion of tryptophan metabolites following (McCoy and Chung), 227
Dermal ridges (fingerprints) and associated anomalies, kindred showing congenital absence of (Baird), 621
Dermatomyositis (Bitnum et al.) (Med. prog.), 101
Developing countries, preschool protection program for children in (Trop. ped.), 586
Diabetes, lipoatrophic, with cirrhosis (CPC), 138
mellitus, route of insulin administration in management of (Nora, Smith, and Cameron), 547
Diabetic and nondiabetic mothers, urinary constituents of (Smith, Reardon, and Field), 652

Dialysis, peritoneal, and alkalinization of urine in salicylate intoxication in children (Summitt and Etteldorf), 803
Differentiation of intestinal tract, incomplete, embryologic significance of (Bennington and Haber), 735
Digitalis intoxication, accidental, in children (Fowler, Rathi, and Keith), 188
Disaccharidase deficiencies with steatorrhea (Lifshitz and Holman), 34
Disease, Addison's, familial, associated with pernicious anemia in young girl (Quinto, Leikin, and Hung), 241
cytomegalic inclusion, in newborn twins (McAllister, Wright, and Tasem), 278
disseminated, and pneumonia, isolation of adenovirus type 7 from fatal case of (Benyesh-Melnick and Rosenberg), 83
kidney, nature of, in children who fail to recover from apparent acute glomerulonephritis (Edelmann, Greifer, and Barnett), 879
opaque areas on cerebral roentgenography simulating intracranial calcification caused by (Livingston and Pauli) (BCLO), 772
serious pediatric (measles) (Abruzzi), 750
sickle cell, treatment of painful crises of (Schwartz and McElfresh) (BCLO), 132
silo fillers', in children, occurrence of (Olson), 724
Disseminated disease and pneumonia, isolation of adenovirus type 7 from fatal case of (Benyesh-Melnick and Rosenberg), 83
Disturbances in biosynthesis of heme in lead intoxication (Chisolm), 174
Dog, artificially produced pulmonary artery stenosis in (Tsifutis et al.), 866
Down's syndrome (mongolism), skeletal maturation in (Pozsonyi, Gibson, and Zarfas), 75
Drug testing in animals for teratogenic effects (Brent) (Med. prog.), 762
Ductus arteriosus, patent, and cranial bruit (Farahmand, White, and Lucas) (BCLO), 441
Dwarfism, psychology of (Pollitt and Money), 415
Dysgenesis, pure gonadal, in monozygous twins, gonadoblastoma associated with (Frasier, Bashore, and Mosier), 740

E

Edema, cerebral, with herniation, compression, and necrosis and contusion (CPC), 290
and hypoproteinemia in infants with cystic fibrosis of pancreas (Fleisher et al.), 341
Electron and light microscopic examination of small bowel of children with cystic fibrosis (Freye et al.), 575
Embryologic significance of undifferentiated intestinal tract (Bennington and Haber), 735
Endemic goiter area, hypothyroidism in children from (Najjar), 372
Enteropathogenic Escherichia coli infections in infants during period from 1957 to 1962 (Rozansky et al.), 521
Eosinophilic cystitis (Wenzl, Greene, and Harris), 746
Equivalent syndrome, convulsive, of childhood (Chao, Sexton, and Davis), 499
Escherichia coli, enteropathogenic, infections in infants during period from 1957 to 1962 (Rozansky et al.), 521
Esophageal erosion (CPC), 446
sphincter, lower, in infants and its relationship to gastroesophageal regurgitation, behavior of (Strawczynski et al.), 17
Exchange resin anion, use of, in treatment of two siblings with familial hypercholesterolemia (Horan, DiLuzio, and Etteldorf), 201
Excretion, 17-hydroxycorticosteroid, in premature infants of diabetic and nondiabetic mothers (Smith, Reardon, and Field), 652
of tryptophan metabolites following deoxypyridoxine administration in mongoloid and nonmongoloid patients (McCoy and Chung), 227

F

Fashions, changing, in infant care (Gaisford), 913
Fatty liver (CPC), 446
Features, myotonic, familial hyperkalemic periodic paralysis with (Carson and Pearson), 853
Females with XXX sex chromosome complements, clinical and cytogenetic studies on group of (Day, Larson, and Wright), 24
Ferrous sulfate poisoning (Covey), 218
Fetal hypothyroidism (French and Van Wyk), 589
thyroxine requirements, fetal versus maternal contributions to (French and Van Wyk), 589
Fever, rheumatic, limitations of prevention of (Saslaw and Vieta), 552
Fibroplasia retrolental (Editorial), 156
Fibrosis, cystic, light and electron microscopic examination of small bowel of children with (Freye et al.), 575
of pancreas, hypoproteinemia and edema in infants with (Fleisher et al.), 341
protein metabolism in (Fleisher et al.), 349
Fingerprints (dermal ridges) and associated anomalies, kindred showing congenital absence of (Baird), 621
Fluoride preparations, vitamin-sodium, fluoride retention in rats receiving various (Hennon, Stookey, and Muhler), 272
retention in rats receiving various vitamin-sodium fluoride preparations (Hennon, Stookey, and Muhler), 272
Fly of family Sarcophagidae, myiasis in child caused by (Burton, Briski, and Khadem) (BCLO), 771
Folic acid deficiency and prematurity (Shojania and Gross), 323
Fontanel, anterior, retinal anlage tumor of infancy in (Reyes, Gonzalez-Angulo, and Navarrette-Reyna), 268

Formulas, milk, effects of protein level and type of heat treatment of, on growth and maturation of infants, (Lowe, Mosovich, and Pessin), 666
Fracture, skull, parietal (CPC), 290

G

Gastric mucosa, heterotopic, in tongue, occurrence of (Gorlin, Kalnins, and Izant), 604
Gastroesophageal regurgitation, behavior of lower esophageal sphincter in infants and its relationship to (Strawczynski et al.), 17
Glomerulonephritis, acute, in children, roentgen appearance of chest in (Kirkpatrick and Fleisher), 492
nature of kidney disease in children who fail to recover from apparent (Edelmann, Greifer, and Barnett), 879
Glucuronyl transferase inhibition of steroids (Jones), 815
Glue-sniffers and nonsniffers, comparison of cognitive functioning of (Dodds and Santostefano), 565
Goiter area, endemic, hypothyroidism in children from (Najjar), 372
Gonadal dysgenesis, pure, in monozygous twins, gonadoblastoma associated with (Frasier, Bashore, and Mosier), 740
Gonadoblastoma associated with pure gonadal dysgenesis in monozygous twins (Frasier, Bashore, and Mosier), 740
Growth of lean body mass during childhood and adolescence (Forbes), 822
and maturation of infants, effects of protein level and type of heat treatment of milk formulas on (Lowe, Mosovich, and Pessin), 666
retardation, intrauterine, versus Silver's syndrome (Szalay), 234

H

Hartmann, Alexis F., Sr. (White), 783
appreciation (Forbes), 793
Heat treatment and protein level of milk formulas on growth and maturation of infants, effects of (Lowe, Mosovich, and Pessin), 666
Hematuria and azotemia associated with administration of methicillin (Grattan) (BCLO), 285
Heme in lead intoxication, disturbances in biosynthesis of (Chisolm), 174
Hemoglobinuria from near-drowning (Munroe), 57
Hemolytic-uremic syndrome (Gianantonio et al.), 478
Hepatomegaly mimicking splenomegaly (Hart and Barnhard) (BCLO), 444
Hernias, umbilical, let us leave alone (Editorial), 303
Heterotopic gastric mucosa in tongue, occurrence of (Gorlin, Kalnins, and Izant) (BCLO), 604
Histogenesis and ultrastructure of molluscum contagiosum (Middelkamp and Munger), 888
"Hormonal" iodine in adolescence, effect of sexual maturity on serum concentration of (Rauh, Knox, and Goldsmith), 697
Hormone, adrenocorticotropic, in children, anaphylactic reactions to (Rosenblum and Rosenblum), 387
Human colostrum and milk, poliomyelitis antibodies in (Athreya, Coriell, and Charney), 79
Hydrocephalus, pulmonary vascular changes complicating ventriculovascular shunting for (Friedman, Zita-Gozum, and Chatten), 305
17-Hydroxycorticosteroid excretion in premature infants of diabetic and nondiabetic mothers (Smith, Reardon, and Field), 652
Hypercholesterolemia, familial, use of anion exchange resin in treatment of two siblings with (Horan, DiLuzio, and Etteldorf), 201
Hyperkalemic periodic paralysis, familial, with myotonic features (Carson and Pearson), 853
Hyperthyroidism, neonatal (Glass, Townsley, and Geppert), 906
Hypoglycemia, ketotic (Colle and Ulstrom), 632
neonatal, in nursery for premature infants, incidence of (Wybregt et al.), 796
Hypoparathyroidism, idiopathic, familial Addison's disease, and moniliasis associated with pernicious anemia in young girl (Quinto, Leikin, and Hung), 241
Hypophosphatemic vitamin D-refractory rickets, use of phosphate salts as adjunct to vitamin D in treatment of (West et al.), 469
Hypoproteinemia and edema in infants with cystic fibrosis of pancreas (Fleisher et al.), 341
Hypothyroidism in children from endemic goiter area (Najjar), 372
fetal (French and Van Wyk), 589
Hypotonic infant (Rabe) (Med. prog.), 422

I

Idiopathic myelofibrosis in infant (Say and Berkel), 580
Inclusion body pneumonia in infant infected with adenovirus type 3, fatal case of (Wright, Beckwith, and Gwinn), 528
Infancy and childhood, muscle reflex patterns in (Wall, Umlauf, and Geppert), 701
retinal anlage tumor of, in anterior fontanel (Reyes, Gonzalez-Angulo, and Navarrete-Reyna), 268
Infant care, changing fashions in (Gaisford), 913
Infection(s), congenital repeated, with Toxoplasma gondii (Blattner) (Comments), 452
Coxsackie virus (Cramblett et al.), 406
enteropathogenic Escherichia coli, in infants during period from 1957 to 1962 (Rozansky et al.), 521

Ingestion, barracuda, neurotoxicity due to (Fogel), 561
Inhibition, glucuronyl transferase, by steroids (Jones), 815
Inoculation, cutaneous, with vaccinia virus, antibody response to (Blattner et al.), 839
Institutionalizing children with mongolism, analysis of reasons for (Kugel et al.), 68
Insufficiency, congenital, of pulmonary valve (Sanyal et al.), 728
mitral, isolated congenital (Husson et al.), 248
Insulin administration in management of diabetes mellitus, route of (Nora, Smith, and Cameron), 547
Intelligence quotient and school achievement of dwarfs (Pollitt and Money), 415
Intestinal tract, undifferentiated, embryologic significance of (Bennington and Haber), 735
Intoxication, accidental digitalis, in children, 188
lead, disturbances in biosynthesis in (Chisolm), 174
salicylate, in children, experience with peritoneal dialysis and alkalinization of urine (Summitt and Etteldorf), 803
Intracranial calcifications caused by disease, opaque areas on cerebral roentgenography simulating (Livingston and Pauli) (BCLO), 772
Intrauterine growth retardation versus Silver's syndrome (Szalay), 234
Iodine "hormonal" in adolescence, effect of sexual maturity on serum concentration of (Rauh, Knox, and Goldsmith), 697
Iron deficiency, prevention of, and iron metabolism in premature infants (Gorten and Cross), 509
metabolism in premature infants and prevention of iron deficiency (Gorten and Cross), 509

K

Ketotic hypoglycemia (Colle and Ulstrom), 632
Kidney disease in children who fail to recover from apparent acute glomerulonephritis (Edelmann, Greifer, and Barnett), 879
Kindred showing congenital absence of dermal ridges (fingerprints) and associated anomalies (Baird), 621
Kwashiorkor, phagocytic and alkaline phosphatase activity of leukocytes in (Tejada et al.) (Trop. ped.), 753

L

Lead intoxication, disturbances in biosynthesis of heme in (Chisolm), 174
Lean body mass during childhood and adolescence, growth of (Forbes), 822
Lesions, childhood, with predominant arteriovenous shunts, natural history of ventricular septal defects in (Ash), 45
Letters to the Editor, 148, 298, 457, 613, 776
Leukemia, acute, central nervous system complications of children with (Evans, D'Angio, and Mitus), 94
Leukemia—Cont'd
lymphocytic, serum complement levels in children with acute (Miller, Meyers, and Carpenter) (BCLO), 134
Leukocytes in kwashiorkor, phagocytic and alkaline phosphatase activity in (Tejada et al.) (Trop. ped.), 753
Light and electron microscopic examination of small bowel of children with cystic fibrosis (Freye et al.), 575
Lipoatrophic diabetes with cirrhosis (CPC), 138
Liver, fatty (CPC), 446
Localization, preoperative, of pheochromocytoma (Fleisher et al.), 711
Lymphocytic leukemia, acute, serum complement levels in children with (Miller, Meyers, and Carpenter) (BCLO), 134

M

Male, adolescent, nasopharyngeal angiofibroma in (Pimpinella), 260
Malformations (*See also* Anomalies)
Malignant solid tumors, vincristine in children with (James and George), 534
Marrow aspiration, bone, in children with malignant tumors (Delta and Pinkel), 542
bone, failure in pediatric patients (Desposito et al.), 683
Maturation and growth of infants, effects of protein level and type of heat treatment of milk formulas on (Lowe, Mosovich, and Pessin), 666
skeletal, in mongolism (Down's syndrome) (Pozsonyi, Gibson, and Zarfas), 75
Maturity, sexual, effect of, on serum concentration of "hormonal" iodine in adolescence (Rauh, Knox, and Goldsmith), 697
Maternal versus fetal contributions to fetal thyroxine requirements (French and Van Wyk), 589
Measles, ascending paralysis associated with (Berkovich and Schneck), 88
prodromal, myocarditis in (Blattner) (Comments), 144
serious pediatric disease (Abruzzi), 750
Meconium staining (CPC), 446
Meetings, schedule of, 150, 299, 459, 614, 778, 924
Mellitus, diabetes, route of insulin administration in management of (Nora, Smith, and Cameron), 547
Meningopathies, thyroid disorders, and cerebral palsy, patterns of, and muscle reflex patterns (Wall, Umlauf, and Geppert), 701
Metabolism, iron, in premature infants, and prevention of iron deficiency (Gorten and Cross), 509
normal porphyrin (Mauzerall), 5
porphyrin and porphyrias (introduction) (Chisolm), 1
protein, in cystic fibrosis of pancreas (Fleisher et al.), 349
Metabolites, tryptophan, following deoxypyridoxine administration in mongoloid and nonmongoloid patients, excretion of (McCoy and Chung), 227

Methicillin, hematuria and azotemia associated with (Grattan) (BCLO), 285
Methopyrapone (Metopirone), response of children to (Richmond, Chapell, and Cleveland), 381
Microscopic examination, light and electron, of small bowel of children with cystic fibrosis (Freye et al.), 575
Milk and colostrum, human, poliomyelitis antibodies in (Athreya, Coriell, and Charney), 79
formulas, effects of protein level and type of heat treatment of, on growth and maturation of infants (Lowe, Mosovich and Pessin), 666
Mitral insufficiency, isolated congenital (Husson et al.), 248
Molluscum contagiosum, ultrastructure and histogenesis of (Middelkamp and Munger), 888
Mongolism, analysis of reasons for institutionalizing children with (Kugel et al.), 68
(Down's syndrome) skeletal maturation in (Pozsonyi, Gibson, and Zarfas), 75
Mongoloid and nonmongoloid patients, excretion of tryptophan metabolites following deoxypyridoxine administration in (McCoy and Chung), 227
Moniliasis, associated with pernicious anemia in young girl (Quinto, Leikin, and Hung), 241
Monozygous twins, gonadoblastoma associated with pure gonadal dysgenesis in (Frasier, Bashore, and Mosier), 740
Mothers, diabetic and nondiabetic, urinary constituents of (Smith, Reardon, and Field), 652
Mucosa, heterotopic gastric, in tongue, occurrence of (Gorlin, Kalnin, and Izant) (BCLO), 604
Muscle reflex patterns in infancy and childhood (Wall, Umlauf, and Geppert), 701
Myelofibrosis, idiopathic, in infant (Say and Berkel), 580
Myiasis in child caused by fly of family Sarcophagidae (Burton, Briski, and Khadem) (BCLO), 771
Myocarditis, acute aseptic, and corticosteroid therapy (Ainger), 716
in prodromal measles (Blattner) (Comments), 144
Myotonic features, familial hyperkalemic periodic paralysis with (Carson and Pearson), 853

N

Nasopharyngeal angiofibroma in adolescent male (Pimpinella), 260
Near-drowning, hemoglobinuria from (Munroe), 57
Neonatal hyperthyroidism (Glass, Townsley, and Geppert), 906
hypoglycemia in nursery for premature infants (Wybregt et al.), 796
Nervous system, central, complications of children with acute leukemia (Evans, D'Angio, and Mitus), 94
Neural development, effects of thyroxine on (French and Van Wyk), 589
Neurotoxicity due to barracuda ingestion (Fogel), 561
New Guinean infants, dental development in (Bailey) (Trop. ped.), 97
Newborn infant, congenital anomalies in (Marden, Smith, and McDonald), 357
twins, cytomegalic inclusion disease in (McAllister, Wright, and Tasem), 278
News and notes, 151, 300, 461, 616, 780, 927
Nursery for premature infants, incidence of neonatal hypoglycemia in (Wybregt et al.), 796

O

Opaque areas on cerebral roentgenography simulating intracranial calcifications caused by disease (Livingston and Pauli) (BCLO), 772

P

Palsy, cerebral, thyroid disorders, and meningopathies, patterns of, and muscle reflex patterns (Wall, Umlauf, and Geppert), 701
Pancreas, cystic fibrosis of, hypoproteinemia and edema in infants with (Fleisher et al.), 341
protein metabolism in (Fleisher et al.), 349
Paralysis, ascending, associated with measles (Berkovich and Schneck), 88
familial hyperkalemic periodic, with myotonic features (Carson and Pearson), 853
Parietal skull fracture (CPC), 290
Pediatric aspects of porphyrias (Chisolm), 159
disease, serious (measles) (Abruzzi), 750
patients, bone marrow failure in (Desposito et al.), 683
psychiatry (Shirley), 610 (B. rev.)
therapy (Shirkey), 611 (B. rev.)
current (Gellis and Kagan), 611 (B. rev.)
Pediatrician and academician: recognition of dual career (Editorial), 154
Pediatrics redefined (Editorial), 464
Periodic breathing of premature infants (Chernick, Heldrich, and Avery), 330
paralysis, familial hyperkalemic with myotonic features (Carson and Pearson), 853
Peritoneal dialysis and alkalinization of urine in salicylate intoxication in children (Summitt and Etteldorf), 803
Phagocytic and alkaline phosphatase activity of leukocytes in kwashiorkor (Tejada et al.) (Trop. ped.), 753
Phenylketonuria, some biochemical lessons to be learned from (Bessman), 828
in Sudanese family (Hassan) (Trop. ped.), 282
Pheochromocytoma, preoperative localization of (Fleisher et al.), 711

Phosphatase, alkaline, and phagocytic activity of leukocytes in kwashiorkor (Tejada et al.) (Trop. ped.), 753
Phosphate salts as adjunct to vitamin D in treatment of hypophosphatemic vitamin D–refractory rickets, use of (West et al.), 469
Platelet counts in premature infants (Medoff) (BCLO), 287
Pneumonia and disseminated disease, isolation of adenovirus type 7 from fatal case of (Benyesh-Melnick and Rosenberg), 83
inclusion body, in infant infected with adenovirus type 3, fatal case of (Wright, Beckwith, and Gwinn), 528
Poisoning, ferrous sulfate (Covey), 218
Poliomyelitis antibodies in human colostrum and milk (Athreya, Coriell, and Charney), 79
Porphyrias, pediatric aspects of (Chisolm), 159
and porphyrin metabolism (Chisolm), 1
Porphyrin metabolism, normal (Mauzerall), 5
and porphyrias (Chisolm), 1
Pregnant rat, thalidomide in (Brent) (Med. prog.), 762
Premature infants of diabetic and nondiabetic mothers, 17-hydroxycorticosteroid excretion in (Smith, Reardon, and Field), 652
iron metabolism in, and prevention of iron deficiency (Gorten and Cross), 509
nursery for, incidence of neonatal hypoglycemia in (Wybregt et al.), 796
periodic breathing of (Chernick, Heldrich, and Avery), 330
platelet counts in (Medoff) (BCLO), 287
Prematurity and folic acid deficiency (Shojania and Gross), 323
Preoperative localization of pheochromocytoma (Fleisher et al.), 711
Preschool protection program for children in developing countries, 586
Prodromal measles, myocarditis in (Blattner) (Comments), 144
Protection program, preschool, for children in developing countries, 586
Protein level and type of heat treatment of milk formulas on growth and maturation of infants, effects of (Lowe, Mosovich, and Pessin), 666
metabolism in cystic fibrosis of pancreas (Fleisher et al.), 349
Psychiatry, pediatric (Shirley), 610 (B. rev.)
Psychology of dwarfism. I. Intelligence quotient and school achievement (Pollitt and Money), 415
Pulmonary artery banding for persistent truncus arteriosus (Kreidberg et al.), 557
stenosis in dog, artificially produced (Tsifutis et al.), 866
thromboemboli, multiple (CPC), 290
valve, congenital insufficiency of (Sanyal et al.), 728
vascular changes complicating ventriculovascular shunting for hydrocephalus (Friedman, Zita-Gozum, and Chatten), 305
Pyridoxine dependency (CPC), 446

R

Rachitic spectrum, craniosynostosis in (Reilly, Leeming, and Fraser), 396
Rat, pregnant, thalidomide in (Brent) (Med. prog.), 762
Reactions, anaphylactic, to adrenocorticotropic hormone in children (Rosenblum and Rosenblum), 387
Reflex, muscle, patterns in infancy and childhood (Wall, Umlauf, and Geppert), 701
Regurgitation, gastroesophageal, behavior of lower esophageal sphincter in infants and its relationship to (Strawczynski et al.), 17
Renal medullas, unidentified crystals in (CPC), 446
Resin, anion exchange, in treatment of two siblings with familial hypercholesterolemia (Horan, DiLuzio, and Etteldorf), 201
Retention, fluoride, in rats receiving various vitamin-sodium fluoride preparations (Hennon, Stookey, and Muhler), 272
"Retinal anlage tumor of infancy" in anterior fontanel (Reyes, Gonzalez-Angulo, and Navarrete-Reyna), 268
Retrolental fibroplasia (Editorial), 156
Rheumatic fever, limitations of prevention of (Saslaw and Vieta), 552
Rickets and craniosynostosis (Reilly, Leeming, and Fraser), 396
hypophosphatemic vitamin D–refractory, use of phosphate salts as adjunct to vitamin D in treatment of (West et al.), 469
Ridges, dermal (fingerprints) and associated anomalies, kindred showing congenital absence of (Baird), 621
Roentgen appearance of chest in acute glomerulonephritis in children (Kirkpatrick and Fleisher), 492
Roentgenography, cerebral, simulating intracranial calcifications caused by disease, opaque areas on (Livingston and Pauli) (BCLO), 772

S

Salicylate intoxication in children—experience with peritoneal dialysis and alkalinization of urine (Summitt and Etteldorf), 803
Salts, phosphate, as adjunct to vitamin D in treatment of hypophosphatemic vitamin D–refractory rickets (West et al.), 469
Sarcophagidae, family, myiasis in child caused by fly of (Burton, Briski, and Khadem) (BCLO), 771
Schedule of meetings, 150, 299, 459, 614, 778, 924
School achievement and intelligence quotient of dwarfs in psychology of dwarfism (Pollitt and Money), 415
Sclerosis, tuberous, arthrogryposis multiplex congenita associated with (Sandbank and Cohen), 571

Septal defects, ventricular, in childhood lesions with predominant arteriovenous shunts, natural history of (Ash), 45
Serum complement levels in children with acute lymphocytic leukemia (Miller, Meyers, and Carpenter) (BCLO), 134
concentration of "hormonal" iodine in adolescence, effect of (Rauh, Knox, and Goldsmith), 697
Sex chromatin in congenital anomalies in newborn infant (Marden, Smith, and McDonald), 357
chromosome, XXX, complements, clinical and cytogenetic studies on group of females with (Day, Larson, and Wright), 24
Sexual maturity on serum concentration of "hormonal" iodine in adolescence, effect of (Rauh, Knox, and Goldsmith), 697
Shunting, ventriculovascular, for hydrocephalus, pulmonary vascular changes complicating (Friedman, Zita-Gozum, and Chatten), 305
Shunts, arteriovenous, natural history of ventricular septal defects in childhood lesions with predominant (Ash), 45
Siblings, 17-18 trisomy and 21 trisomy syndromes in (Turner, den Dulk, and Watkins) (BCLO), 601
Sickle cell disease, treatment of painful crises of (Schwartz and McElfresh (BCLO), 132
Silo fillers' disease in children, occurrence of (Olson), 724
Silver's syndrome, intrauterine growth retardation versus (Szalay), 234
Simulating intracranial calcifications caused by disease, opaque areas on cerebral roentgenography[9] (Livingston and Pauli) (BCLO), 772
Skeletal maturation in mongolism (Down's syndrome) (Pozsonyi, Gibson, and Zarfas), 75
Skull fracture (parietal) (CPC), 290
Sodium-vitamin fluoride preparations, fluoride retention in rats receiving various (Hennon, Stookey, and Muhler), 272
Sphincter, lower esophageal, in infants and its relationship to gastroesophageal regurgitation, behavior of (Strawczynski et al.), 17
Splenomegaly, hepatomegaly mimicking (Hart and Barnhard) (BCLO), 444
Staining, meconium (CPC), 446
Steatorrhea, disaccharidase deficiencies with (Lifshitz and Holman), 34
Stenosis, artificially produced pulmonary artery, in dog (Tsifutis et al.), 866
Steroids, glucuronyl transferase inhibition by (Jones), 815
Sudanese family, phenylketonuria in (Hassan) (Trop. ped.), 282
Sulfate, ferrous, poisoning (Covey), 218
Surface examination for congenital anomalies in newborn infant (Marden, Smith, and McDonald), 357
Symposium on porphyrins: Part I, 1
Part II, 159
Syndrome(s), convulsive equivalent, of childhood (Chao, Sexton and Davis), 499
Down's (mongolism), skeletal maturation in (Pozsonyi, Gibson, and Zarfas), 75
hemolytic-uremic (Gianantonio et al.), 478
newly recognized, of multiple congenital anomalies (Smith, Lemli, and Opitz), 210
Silver's, intrauterine growth retardation versus (Szalay), 234
17-18 trisomy and 21 trisomy, in siblings (Turner, den Dulk, and Watkins) (BCLO), 601
Syphilis, congenital: laid ghost walks (Woody, Sistrunk, and Platou), 63
System, cardiovascular, in children from high altitude (Vogel, Pryor, and Blount), 315
central nervous, complication of children with acute leukemia (Evans, D'Angio, and Mitus), 94

T

Teratogenic effects, drug testing in animals for (Brent) (Med. prog.), 762
Testosterone and cortisone treatment in bone marrow, failure in pediatric patients (Desposito et al.), 683
Thalidomide in pregnant rat (Brent) (Med. prog.), 762
Therapy, pediatric (Shirkey), 611 (B. rev.)
current (Gellis and Kagan), 611 (B. rev.)
Thromboemboli, pulmonary, multiple (CPC), 290
Thymic "atrophy," excessive (CPC), 446
Thyroid disorders, cerebral palsy, and meningopathies, patterns of, and muscle reflex patterns (Wall, Umlauf, and Geppert), 701
Thyroxine, effects of, on neural development in fetal hypothyroidism (French and Van Wyk), 589
fetal, requirements, fetal versus maternal contributions to (French and Van Wyk), 589
Tongue, occurrence of heterotopic gastric mucosa in (Gorlin, Kalnins, and Izant) (BCLO), 604
Toxoplasma gondii, repeated congenital infection with (Blattner) (Comments), 452
Tract, undifferentiated intestinal, embryologic significance of (Bennington and Haber), 735
Transferase, glucuronyl, inhibition by steroids (Jones), 815
Trisomies, 17-18 and 21, syndromes in siblings (Turner, den Dulk, and Watkins) (BCLO), 601
Truncus arteriosus, persistent, pulmonary artery banding for (Kreidberg et al.), 557
Tryptophan metabolites, excretion of, following deoxypyridoxine administration in mongoloid and nonmongoloid patients (McCoy and Chung), 227

Tuberous, sclerosis, arthrogryposis multiplex congenita associated with (Sandbank and Cohen), 571
Tumor(s), anlage retinal in anterior fontanel (Reyes, Gonzalez-Angulo, and Navarrete-Reyna), 268
malignant, bone marrow aspiration in children with (Delta and Pinkel), 542
solid, vincristine in children with (James and George), 534
Twins, monozygous, gonadoblastoma associated with pure gonadal dysgenesis in (Frasier, Bashore, and Mosier), 740
newborn, cytomegalic inclusion disease in (McAllister, Wright, and Tasem), 278

U

Ultrastructure and histogenesis of molluscum contagiosum (Middelkamp and Munger), 888
Umbilical hernias, let us leave alone (Editorial), 303
Uremic-hemolytic syndrome (Gianantonio et al.), 478
Urinary constituents of infants of diabetic and nondiabetic mothers (Smith, Reardon, and Field), 652
Urine, experience with peritoneal dialysis and alkalinization of, in salicylate intoxication in children (Summitt and Etteldorf), 803

V

Vaccinated children, viremia and viruria in, antibody response in (Blattner et al.), 839
Vaccinia virus, antibody response to cutaneous inoculation with (Blattner et al.), 839
Valve, pulmonary, congenital insufficiency of (Sanyal et al.), 728
Vascular, pulmonary, changes complication ventriculovascular shunting for hydrocephalus (Friedman, Zita-Gozum, and Chatten), 305
Ventricular septal defects in childhood, lesions with predominant arteriovenous shunts, natural history of (Ash), 45
Ventriculovascular shunting for hydrocephalus, pulmonary vascular changes complicating (Friedman, Zita-Gozum, and Chattan), 305
Vincristine in children with malignant solid tumors (James and George), 534
Viremia and viruria in vaccinated children, antibody response in (Blattner et al.), 839
Virus, Coxsackie, infections (Cramblett et al.), 406
vaccinia, antibody response to cutaneous inoculation with (Blattner et al.), 839
Vitamin D in treatment of hypophosphatemic vitamin D–refractory rickets, use of phosphate salts as adjunct to (West et al.), 469
Vitamin D–refractory rickets, hypophosphatemic, use of phosphate salts as adjunct to vitamin D in treatment of (West et al.), 469
Vitamin D–resistant rickets, primary (Editorial), 618
Vitamin-sodium fluoride preparations, fluoride retention in rats receiving various (Hennon, Stookey, and Muhler), 272

X

XXX sex chromosome complements, clinical and cytogenetic studies on group of females with (Day, Larson, and Wright), 24
